CARRANZA WILL RESIGN ONLY ON ARMY'S DEMAND

Otherwise, He Will Fight Villa as He Fought Huerta, the Usurper

PEACE OUTLOOK IS BRIGHT

Sec. Bryan Considers Troubles in Mexico About Over, He Tells Wilson

MEXICO CITY, Sept. 29.—In his reply this evening to the petition of Francisco Villa's generals, asking him to resign in favor of Fernando Iglesias Calderon and thus avoid civil war, Gen. Venustiano Carranza says:

"I will gladly take such action if it is ratified by the general conference, if not, I will fight with the same energy that I employed in combating the usurpation of Huerta. I will fight reaction and the old regime, which now appears to be headed by Villa, who, it may be, is an unwitting tool in this, as was Orozco in his fight against Madero."

General Carranza asks General Villa's chief to demand the retirement of this leader as commander of the northern division of the army in view of his (Carranza's) willingness to retire if the army so votes.

Peace Outlook Bright.

WASHINGTON, Sept. 29.—Optimistic dispatches today from Consul Silliman and the Brazilian minister at Mexico City caused Secretary Bryan to inform President Wilson that the prospects for restoration of permanent peace in [illegible] were brighter than at any [illegible] the overthrow of Madero by [illegible].

In the light of all advices, both from Mexico City and Chihuahua City, General Villa's headquarters, officials here all are confident that the new upheaval threatened by the breach between Villa and Carranza will be averted by the latter's retirement as first chief of the Constitutionalists [illegible] hope that the conference would be able to agree upon Calderon as the provisional president in time to have their action placed before the convention to be held at Mexico City Thursday, October 1, to set up the new government.

Catholic Question.

It is understood that one of the first matters to be brought to the attention of the provisional president when he is elected will be the attitude of those now in power toward the Catholics. A demand for religious liberty for all American citizens probably will be made.

The Dutch minister, W. L. F. C. Van Rappard, conferred with Secretary Bryan today in regard to the Dutch oil interests in the Tampico district of Mexico. These suffered greatly from political changes, and the minister was somewhat apprehensive as to the probable effect upon them of another revolution. Secretary Bryan believes that there is little danger of interference with the oil interests.

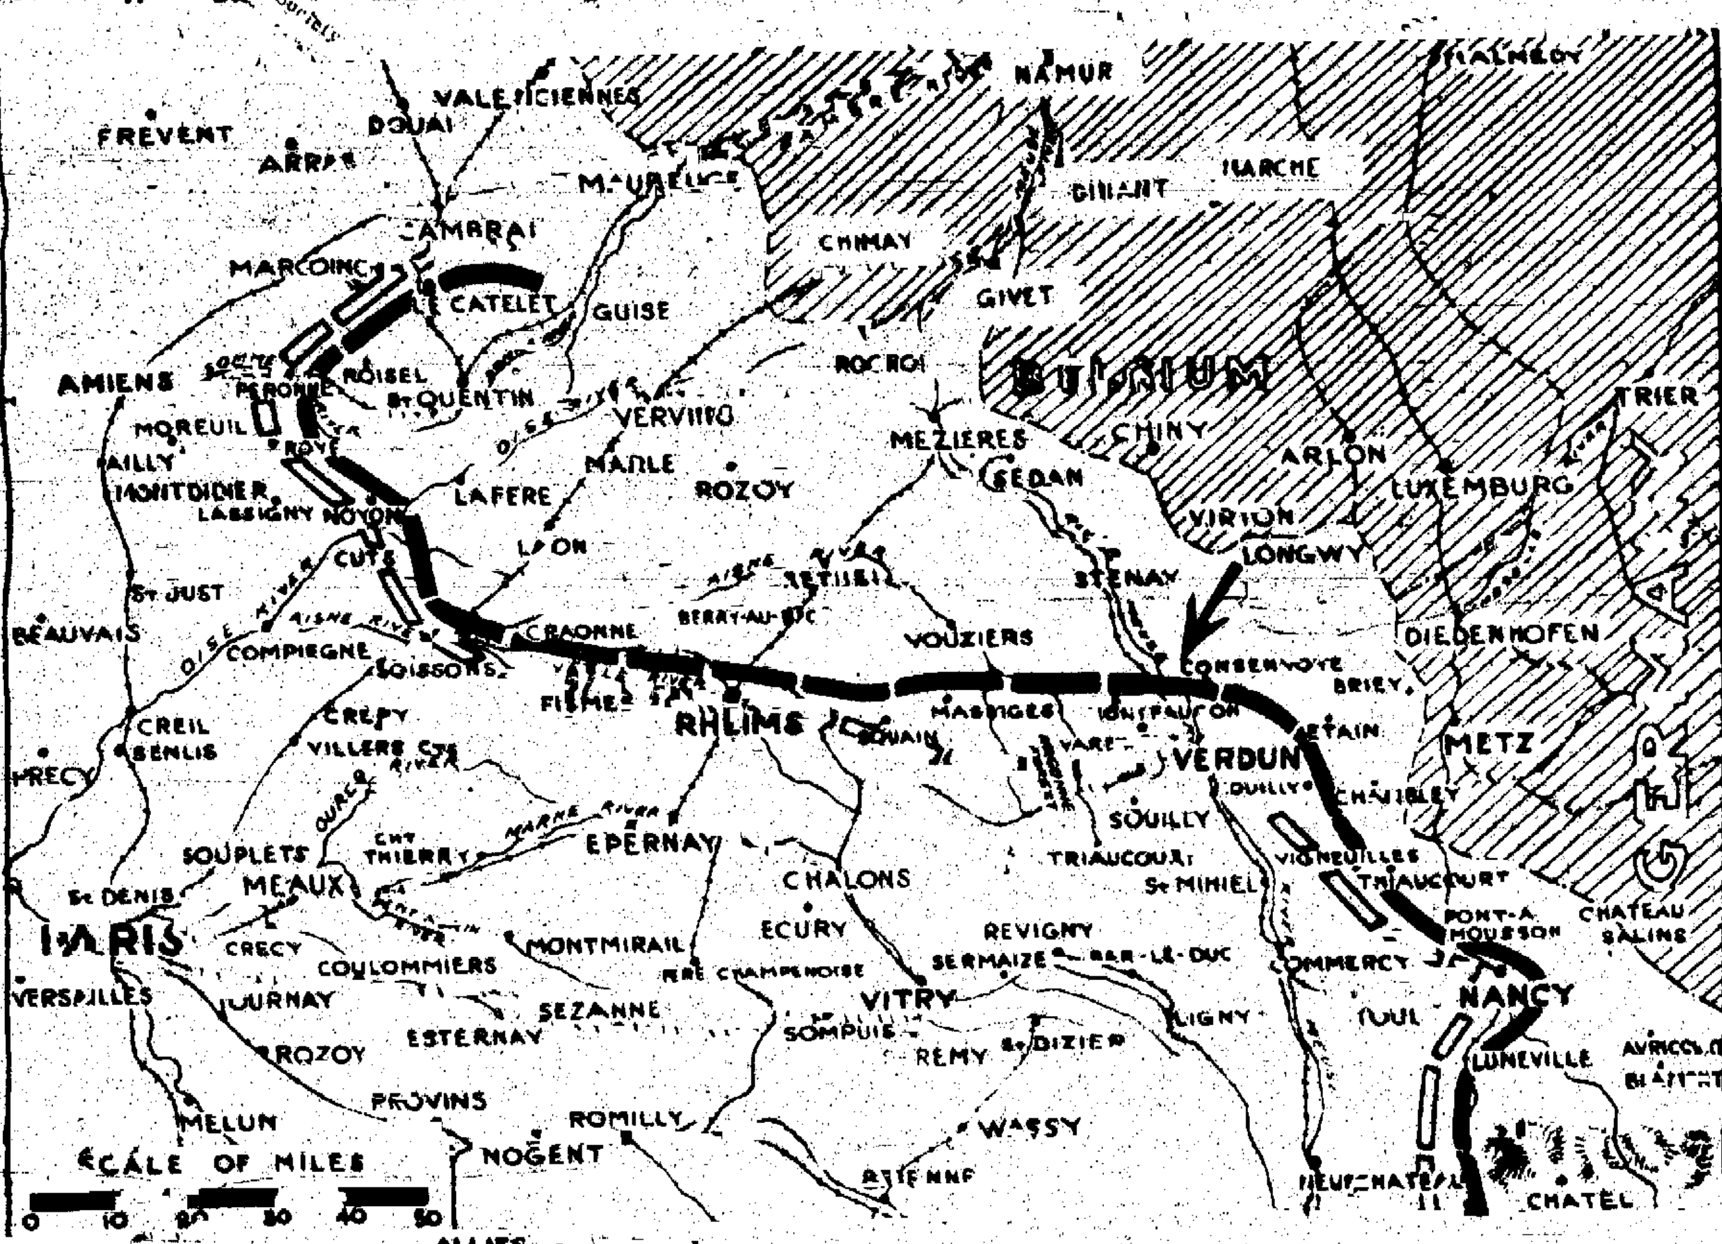

The text of the communication sent to General Carranza by the military officers and civilians of the division of the north, Villa's division, appealing to him to resign in favor of Calderon, was made public by the state department tonight. It follows:

Appeal to Carranza.

"The generals, chiefs and officials of the division of the north, as well as the civilians undersigned, sincerely moved by the patriotic and dignified attitude worthy of the greatest admiration which our brothers of other divisions, the generals—Ignacio Pesqueira, Lucio Blanco, Eduardo Hay, Rafael Buelna and J. C. Medina—have assumed by putting to one side the paroxysm of self-love and of every bastard passion in order to save the fatherland from this terrible and painful danger in which it finds itself, we address ourselves to you in order to

WHERE GREAT BATTLE HAS BEEN IN PROGRESS FOR EIGHTEEN DAYS

OGDEN GATEWAY IS NOT TO BE CLOSED

Interstate Commission Makes Decision; Pikes Peak Region Will Benefit

The preliminary skirmish on the matter of closing the Ogden gateway by the Union Pacific has been won by the [illegible] railroads. The suspension of this, canceling fares through Colorado and Utah via Ogden to and from Oregon Short Line points, was ordered yesterday by the interstate commerce commission, according to telegraphic advices received at the local D. & R. G. offices.

Colorado railroads and the Colorado Springs Chamber of Commerce last week filed a protest against the proposed action of the Union Pacific on the ground that it would affect travel through the scenic parts of Colorado. A number of commercial and business organizations throughout the state also filed protests.

The order of the interstate commerce commission to suspend tariffs was the result of a hearing of protests last Thursday in Washington, D. C. Attorneys representing the railroads were present at the hearing. Had the gateway been closed, it was argued passengers for the northwest from points in Colorado and eastward would have been unable to travel to Salt Lake City over the Denver & Rio Grande and Midland railways. They would have been compelled to go to Denver and purchase Union Pacific tickets, which would have been honored by the Oregon Short Line. People in the northwest desiring to come east would have been unable to travel through the Pikes Peak region and Colorado Springs. Yellowstone park travel would have been affected in the same way.

It was argued by the Union Pacific railroad that any decrease in stopover business here occasioned by the new order would have been offset by increased travel from points south and east over lines which have formerly transferred passengers to the D. & R. G. railroad at Pueblo.

KURDS ATTACK PERSIANS

PARIS, Sept. 29.—A dispatch from Petrograd says the Kurds have attacked the Persian population near the frontier.

GERMANS BEGIN ANTWERP ATTACK

ALREADY HAMMERING AT GATES OF CITY

Heavy Siege Artillery Will Be Used to Reduce Forts of the Capital.

LONDON, Sept. 30—(Wednesday).—The correspondent of the Post at Antwerp, telegraphing regarding the attack on the outer forts there, says:

"The bombardment of outer forts, which developed Tuesday, had a lamentable result at Duffel, 10 miles south of Antwerp, where a crowd of refugees were at the station awaiting a train in which to leave the shelled area. Twenty German shells fell into the station, and the crowd of refugees—men, women and children—were almost annihilated.

"An armored train, with engineers and soldiers, advanced near Duffel and did great execution among the German outposts.

"The position now shows clearly that the Germans contemplate a heavy artillery attack on Antwerp, probably as a means to extort from the government an armistice, so as to release the German army now covering the fortress. Their plan probably will be to use siege artillery."

Attack Already Begun.

AMSTERDAM, Sept. 29 (Midnight)—The Germans have commenced their attack on the first line of defense of Antwerp, according to dispatches received by the Amsterdam papers. Moll, which is an important railway junction near the Dutch border, was occupied by the Germans Sunday, and today the Germans, who again occupy Malines, began a bombardment of Lierre, directly in front of Antwerp. They also continued their bombardment of Forts Waehel and St. Catherine. It is believed heavy Austrian artillery is being used.

Lierre, according to a message to the Handelsblad, has been under shell fire since early morning. The people at first hid in the cellars, but subsequently fled to Antwerp, being joined by fugitives from the surrounding villages. It is reported that many houses have been destroyed and some of the inhabitants killed and wounded. One shell fell on a hospital, killing nine persons.

Germans Bombard Lierre.

AMSTERDAM, Sept. 29.—A dispatch to the Telegraaf from Antwerp states that since 8 o'clock this morning the Germans have been bombarding Lierre, a manufacturing town nine miles southwest of east of Antwerp.

The entire population of Lierre has fled to Antwerp. It is feared that the whole town now is in ruins.

MT. LASSEN AGAIN IS IN ERUPTION

MINERAL, Cal., Sept. 29.—Lassen peak, the northern California volcano whose activities have been growing more pronounced daily, started spouting fire and superheated rock tonight.

Seventeen "balls of fire" were counted by a forest service lookout near by, on Turner mountain, with an accompanying appearance as of burning gases.

FARM EXHIBITS DRAW INTERESTED CROWDS

Hundreds Visit Big Tent at Opening of Central Colorado Fair

Farmers, farm women and their families from many parts of the state are attending the Central Colorado fair. The big exposition tent at the [illegible] of Huerfano street and Nevada avenue was filled with sightseers all day yesterday, and larger delegations are expected today and tomorrow. No admission is being charged. Dry farm crops from El Paso, Lincoln and Kit Carson counties are being shown. The Cheyenne county display will be placed today with several community fair exhibits. Stratton, Flagler and Seibert are sending special displays.

On account of the delay in the arrival and placing of several of the exhibits final judgments on county, community and individual products have been postponed until this afternoon.

Live stock and dairy cattle are on exhibition in Peck's corral, west of the tent. Fine specimens of Holstein, Shorthorn and Jersey stock are being shown. More are expected in today.

Boys' and Girls' Division.

A special division has been set aside for the Boys' and Girls' clubs' exhibits. They represent the work of a summer and comprise preserved fruits, pickles, bread, corn, fancy work and many other things. The clubs have been conducted by County Agriculturist W. H. Lauck and Miss Beulah Herschler.

The first sessions of the State Dairymen's association and the farmers' institute were held yesterday afternoon and evening in the Chamber of Commerce rooms in the Burns building. Agricultural experts from all parts of the state addressed the meeting. This morning will be given over to finishing the judging. In the afternoon business session will be held, and later addresses will be made by experts.

Tomorrow, which is Farmers' and Rural Homemakers' day, will be dedicated to out-of-town visitors. A barbecue and entertainment has been planned for the evening, and the farmers and their families will be the guests of the Chamber of Commerce. Moving pictures of agricultural scenes in the Pikes Peak region, which were filmed this summer, will be shown, and there will be music and an exhibition of lantern slides. A menu has been prepared by Mark Raftry, who is in

BUY POSIES TODAY AND HELP RED CROSS FUND

Flowers Given to Local Society Are on Sale Down Town; Fund Amounts to $3,377.60

In the matter of subscriptions to the Red Cross fund Colorado Springs has contributed nearly twice as much money as Denver and other cities of larger population. Many more added their names to the list of subscribers yesterday, and last night the amount raised to date was given out as $3,377.60.

It was announced yesterday by officials of the local chapter that William Clark has donated a large number of flowers to the society and that these will be sold today by Red Cross workers and the proceeds turned into the fund. The flowers will be on

(Continued on Page Three)

DEMOCRATS WILL HEAR FROM HOME

PARTY GUILTY OF HYPOCRISY, SAYS REED

Condemns Colleagues for Mutilating the Clayton Anti-trust Bill

WASHINGTON, Sept. 29.—Senator Reed of Missouri today concluded a two-day speech in opposition to the conference report on the Clayton anti-trust bill, with a final bitter attack upon his colleagues for eliminating specific penalties from the measure. He predicted that the time soon would come when they would be compelled to write into the law more severe penalties for violation of trust laws than had been contemplated originally in the Clayton bill.

The senator announced that he would move to recommit the bill to the conference committee with instructions. Administration leaders declared tonight, however, that the motion to recommit would be lost and the report approved.

Will Hear From Home.

Senator Reed severely criticised the conferees for striking from the bill his amendment, which would authorize the courts to appoint receivers and sell the property of convicted corporations to persons who would restore competition. Dissolution of corporations without sale, he declared, availed nothing. He took the case of the Standard Oil company for illustration. "The ticker in Wall street," he said, "told the story of the dissolution in its rising profits."

"We have played the hypocrite," he continued. "We said when this great Democratic host assembled that we would hew a clean path for the common people to tread. Having marched to the hill to the heroic blast of bugles of war, we settled by the camp fire, tuning our ears to the seductive notes of 'Home, Sweet Home.' Some of us will hear from home."

ROOSEVELT ASSAILS THE LIQUOR TRUST

Urges Ohioans to Destroy Dominance of Politics by the Brewers

TOLEDO, O., Sept. 29.—Theodore Roosevelt, in an address here today, made even more emphatic than in previous speeches the stand of the Ohio Progressive party against the liquor traffic.

Colonel Roosevelt came from Columbus, accompanied by Walter F. Brown, chairman of the Progressive state central committee. A parade of Progressives escorted him to a hotel, where he rested and had luncheon previous to going to the theater.

Colonel Roosevelt came out flatly for the whole temperance program of the Ohio Progressives.

"Conditions in Ohio this year are such that if I were a citizen of Ohio, I would vote against the wet amendment and for the dry amendment," he said.

Liquor Men Raise Issue.

He referred to the brewers' amendment to abolish county option and pro-

(Continued on Page Three)

ALLIES SMASH GERMAN RIGHT WING, SAYS PARIS REPORT; FLIGHT BEGINS

Enemy Is Surrounded on Somme and Peronne Retaken by the Anglo-French Forces

Official Reports Say Battle, That Has Been Raging 18 Days, Continues With Little Change in Alignment of Armies; Struggle Will Go Down in History as Greatest World Has Ever Known

LONDON, Sept. 30 (Wednesday).—A Paris dispatch to the Exchange Telegraph company says:

"It is stated here tonight (Tuesday) that the German right has been entirely broken and is being pursued by the allies. All the automobiles in northern France have been requisitioned for the purpose of pursuit.

Armored motor cars with mitrailleuses also are being used to pursue the retreating enemy.

"The official communications issued at 3 o'clock this morning demonstrates unmistakably that the Germans have been surrounded in the Somme department, the French front extending further east.

"It is officially stated that Peronne has been recaptured."

The above message has been referred to the British official press bureau, which, while not objecting to its publication, takes no responsibility for its correctness.

ARMIES SAID TO BE IN SAME POSITIONS

LONDON, Sept. 29.—Fighting of the past few days, which took the form of heavy offensive operations, has not changed to any marked extent the positions of the opposing armies in Northern France. Some heavy blows have been struck by each side, but the armies remain practically where they were when the Germans stopped their retirement and commenced to intrench themselves.

The lengthy official communication issued today by the French general staff makes this plain. The lines of the allies are roughly sketched in the statement and it is gathered that the French right still rests on Pont-a-Mousson and from there turns southward to cross the Meuse near St. Mihiel where the Germans have succeeded in pushing a contingent forward.

ARMIES IN CLOSE CONTACT ON THE WESTERN END

Thence the front proceeds northward to encircle Verdun from which fortress it strikes directly westward to Rheims and thence northwestward across the river Aisne at Berry-au-Bac. It follows the Aisne to Soissons and runs from there northwestward, crossing the river Oise at Ribecourt to Roye, Albert and Combles. The two latter places are north of the Somme.

In the west the wings are in very close touch, the Germans holding Lassigny, which lies between Ribecourt and Roye, which are in possession of the French, and also Chaulnes, which is in an almost direct line between Roye and Albert.

It is here that the allies have been attempting a wide turning movement to prevent which the Germans have apparently sent our strong forces.

GERMANS CONTINUE DAY AND NIGHT ATTACKS

The French announcement says the Germans have continued their day and night attacks, only to be repulsed, but it is evident they are showing plenty of fight and are making a supreme effort to [illegible] allies from [illegible] around [illegible].

To the north of the Aisne, two well-[illegible] heavy attacks to compel the French to withdraw from St. Mihiel where they might bend, if they did not break, the French front.

FRENCH CAPTURE NUMBER OF PRISONERS

The French also report that they captured a number of prisoners yesterday, but did not say where this capture was effected. Both sides profess to be well satisfied with the position which must, however, prove very wearing on the troops. Naturally fresh troops are being brought up continually, but it is dangerous for either side to withdraw many men from the fighting line, even to give them a short respite.

The Germans already have strengthened their right at the expense of the rest of their line and many more men to assist them will have to be sent from Germany or Belgium. To take troops from Belgium, with the active Belgian army ready to take the offensive at the first sign of weakening, would be a hazardous undertaking. The allies, as is known to all the world, are expecting reinforcements of well-trained troops from India, but when they are due has not been disclosed. They may arrive in time to turn the balance in favor of their side.

A further account of the operations in France up to five days ago was issued by the official press bureau today. It pays high tribute to the work of the airmen who, since the outbreak of the war, have succeeded in keeping the special staffs on both sides informed of the movements of the opposing forces.

Having invested Przemysl, the Russians are reported to be making their way not only through the Carpathians

(Continued on Page Four.)

GREAT BATTLE ON EASTERN BORDER NOW IS IMMINENT

Russians, Germans and Austrians Massing Millions of Men Along Frontier for Hundreds of Miles

LONDON, Sept. 30.—(Wednesday).—It is officially announced at Vienna, according to a Rome dispatch to the Exchange Telegraph company, that a junction has been effected between the new German army and the remnants of the Austrian army which fought in the Galician battle. The new combined army is taking up a position and already has been in contact with the Russians along the Carpathian Tarnow-Cracow front.

COPENHAGEN, Sept. 30.—(Wednesday).—All the German troops in Schleswig, Prussia, have been sent hurriedly to France, Belgium, or to protect Sylt, one of the North Frisian islands off the west coast of Schleswig.

These soldiers will be replaced by smaller divisions of landstrum troops.

Great Battle Imminent.

LONDON, Sept. 30.—"The Germans are fortifying and intrenching the heights south of Kielce, Russian Poland, which commands the Galician and Silesian frontiers, apparently to cover a German advance through Silesia and to aid the Austrians in the defense of Cracow," says the Petrograd correspondent of the Reuter Telegram company.

"It is stated that the German troops

(Continued on Page Four.)

Help the Red Cross Society

Members of the Committee of One Hundred of the Pikes Peak chapter of the American Red Cross society have started their intensive campaign for funds to aid in alleviating suffering on the battlefields of Europe.

To date nearly $3,400 has been raised, and those who are soliciting contributions are meeting with marked success.

It is likely that someone who is cheerfully devoting his or her time to the work will call on you today. You are under no obligation to contribute a penny—although morally it is your duty to aid the work of the Red Cross society in whatever way you can.

Just a word of precaution. Do not give money to anyone soliciting Red Cross funds unless they carry proper credentials signed by Dr. Mary E. Noble and countersigned by Helen M. Curtis, or unless you personally know the solicitor.

Contributions may also be left at any of the banks and at the offices of The Gazette and Telegraph.

CONGRESS SOON MAY ADJOURN AND LATER HOLD EXTRA SESSION

Plan on Foot to Meet Again After Elections to Take Up Ship Bill

WASHINGTON, Sept. 29.—An administration-approved movement for a three-day recess of the house, beginning next week, and adjournment of congress, if possible, by October 10, and a reassembling of congress in a special session on November 11, under call of President Wilson to consider specifically the ship purchase bill, was undertaken today by Democratic leaders at the capital. All day there were conferences between the leaders and the rank and file of their party in both houses, and the results tonight gave hope for an agreement along this line tomorrow.

The president has told senators and representatives repeatedly that the war revenue bill, already passed by the house, and the Clayton antitrust bill should be enacted into law before adjournment.

Situation Well in Hand.

The Clayton bill is in the form of a conference report, which is being filibustered against in the senate, but which will not occasion much trouble when brought up in the house. The third measure which the president urged was the river and harbor bill, which passed the house tonight and is ready for his approval.

Democratic leaders in the house believe the situation is well in hand there, and Democratic Leader Kern will make known tomorrow the disposition of the senate toward entering into a pact for considering the shipping bill at a specific time after the elections.

The bill contemplates the formation of a private corporation, with at least 51 per cent of the stock to be owned by the government, to purchase build and operate vessels to meet the demands of commerce growing out of the European war, with particular reference to South America.

President's Program.

The president has indicated to party associates that any recess or adjournment plan should be predicated on an agreement to consider the ship bill either in November following the elections or at the very outset of the regular short session of congress in December.

Majority Leader Underwood let it be known today that he probably would be able to propose to the Republican minority some adjournment or recess plan tomorrow.

Many of the members have been chafing at the protracted session, complaining that they are held here while their opponents are working hard at home.

The present plan includes a proposal of the leaders to abrogate during the recesses the enforcement of the law respecting docking salaries of members away except for illness.

ROOSEVELT ASSAILS THE LIQUOR TRUST

(Continued From Page One.)

hibit prohibition and to the statewide prohibition amendment submitted by the Antisaloon league.

He charged the liquor men with bringing the issue on themselves. He said:

"The brewers and distillers have taken the field against woman suffrage because they regard the entry of women into the rights of citizenship as a danger to the dominance of liquor in politics, which they have been trying more and more to establish.

"I saw this in Michigan, where every saloon was headquarters for the fight against woman suffrage.

"In this state, I ask you to remember that the issue was forced by the liquor interests. I have not been one of those who wanted to bring up the issue and I regret that it has been brought up; but when it is brought up, I am not afraid to face it.

Shall Brewers Rule State?

"In this state, a counter-attack is signified by the dry amendment. The brewers and people subservient to them made it evident that only one of two alternatives can be taken.

"Do you want to let the liquor interests dominate your parties, your public life and your government?"

Of woman suffrage he said:

"I ask you to give the women the right to vote, not only as a matter of right to them, but as a matter of justice to the men who are striving to do what is right in public interests."

Speaking of the judiciary, Colonel Roosevelt said:

"Give to the people the right to say whether they approve judge-made laws the same as they have a right to say concerning legislative-made laws, and you will have removed the last objection to the judiciary."

PRAIRIE OIL & GAS CO. TO REOPEN OKLA. PIPE LINES

OKLAHOMA CITY, Sept. 29.—Differences between the Prairie Oil & Gas company, the principal buyer of crude oil in Oklahoma, and producers were adjusted temporarily at a hearing today before the state corporation commission and announcement was made tonight that the company would resume operation of its pipe lines tomorrow.

The Prairie company withdrew from the Oklahoma fields last week when the corporation commission fixed a minimum price for oil.

According to today's agreement, a temporary price will be established to be in effect 30 days. In the meantime, a conservation plan, limiting production, will be worked out. The price agreed on was not made public. The recent order of the commission fixed the price at 65 cents a barrel.

APPROPRIATION BILL PASSED BY HOUSE

Measure Now Only Lacks the President's Signature to Become Law

WASHINGTON, Sept. 29.—The rivers and harbors appropriation bill in the form of a senate substitute, carrying only a general fund of $20,000,000 for continuing present projects in the discretion of the war department, was passed late today by the house. It now only needs the president's approval to become law.

As reported by the senate committee, the bill included appropriations aggregating $53,000,000, but the successful filibuster conducted by Senator Burton resulted in the adoption of the substitute.

Numerous amendments were defeated today before the final vote. Representative Fitzgerald of New York wanted specific authorization for the expenditure of $500,000 for improving Hell Gate and East river, including the blowing up of Coenties reef. Delay in this work, he said, meant enormously greater cost later and immediate danger to lives.

Clark Supports Proposal.

Representative Rainey of Illinois sought to extend the Mississippi river levee improvement as far north as Rock Island, instead of Cape Girardeau, near the mouth of the Ohio river, as at present authorized. Speaker Clark took the floor to support this amendment, saying it was needed "for a country richer than the valley of the Ganges or the Nile delta." It was rejected, 123 to 46.

The final effort of the opposition in an amendment by Representative Humphrey of Washington to reduce the appropriation from $20,000,000 to $5,000,000 was defeated, 172 to 130. The bill was then passed without a record vote and will become law upon the president's signature.

During the debate Republican Leader Mann charged the Democrats with extravagance and said that every man who is hard up and signs a mortgage, a promissory note or who signs a deed or takes out an insurance policy will help pay for the river and harbor projects.

CARRANZA WILL RESIGN ONLY ON ARMY'S DEMAND

(Continued From Page One.)

manifest to you that our dear brothers of the other divisions do not in vain invoke our sentiments of dignity, our conscience of honor and the just love that we may have for our fatherland.

"It is likewise our greatest ambition that the regenerating work of the Constitutionalist revolution may not fail, and we embrace the great hope that the sacrifices of our dead brothers shall not have been futile in the camp of battle in defense of the holy ideal of liberty and justice.

"Like our above-mentioned brothers, we desire to make every effort to prevent the enemies of the liberating cause, who stoop to any medium that stains the republic in blood, from profiting by such circumstances, to make every effort and every sacrifice before putting the fatherland in danger of the somber foreign intervention. Only the failure of all these noble hopes and all these generous efforts will lead us to the fratricidal struggle into which we would be compelled to enter as our duty, but with our soul full of sorrow and sadness.

"On account of the national misfortunes by this manifestation, and having the intimate conviction that you will be able to place yourself at the height of the circumstances and that you will be inspired by the noble example of all true patriots who have gloriously fallen defending the liberty and honor of our soil, that there may be contained in your soul as a good Mexican noble sentiments, we ask of you that in the sublime gesture of patriotism you save the republic from a chaos to which it might attain by the failures and irreflections of all.

Villa's Demands.

"General Villa has telegraphed to all our dear brothers to cease the hostile attitude of the north when you in an outburst of patriotism and abnegation turned over the supreme command to the incorruptible Liberal, Fernando Iglesias Calderon, who by his talent, energy and clean antecedents will be a guarantee for the revolution, because he will know how to lead the republic by the path of honor and will never be traitor to the ideal of the democratic cause.

"General Villa has declared categorically that the whole of this division will uphold firmly Senor Iglesias, and, in a high example of patriotism and disinterest already confessed before the whole world, that none of his chiefs aspire to the presidency or vice presidency of the republic, either in a transitory sense of constitutional. The declarations, Honorable Senor, first chief, powerfully reveal that this division will offer any sacrifice at the altar of the fatherland and that it is not guided by bastard or small ambitions.

"We warmly exhort you by putting aside all advices of the ambitious and by putting aside all sentiments of pride and of poor self-esteem, to lay aside the supreme power of the republic in order to save her from the dangers to which pride and obstinacy might lead her. This magnanimous and praiseworthy action will be the basis for the salvation and the aggrandizement of the republic and will put you above the level of the highest, leaving to the generations to come after us a luminous and beautiful example of disinterested patriotism. (Signed)

"Generals Benavides, Fidel L. Villa, Rul, Robles, Garcia, Chao, Pereya, Sirvin, Rodriguez, Arroyo, Angeles, Madero, Colonels Medinaveytia and Raminez, Lieut. Col. Santos Coy, Attorneys Gonzales, Garza, Lombardo, Uribe, Doctors Castellanos, Sylva, Creel, Fierres."

FARM EXHIBITS DRAW INTERESTED CROWDS

(Continued From Page One.)

charge of the feast, and more than 500 people are expected.

Camp Opens Tomorrow.

Plans for the boys' and girls' camp are going ahead rapidly. The baking oven has been installed in Monument Valley park and preparations have been made to pitch 30 sleeping tents, a cook and mess tent. The camp will open tomorrow morning and the fair will be given over to the children. They will attend the dinner in the evening at the big tent.

Feed crops, grown east, north and south of Colorado Springs, are on exhibition in the tent. Milo maise, kafir corn, sunflowers, high altitude corn and other products are shown. Oats, barley, rye and wheat are also on exhibition. In the vegetable line, pumpkins, squashes, beans, potatoes, turnips and cabbages predominate.

Local firms have manufacturing exhibits, including stoves, feeding bins, brooms and many other things to boost home industry.

The following program has been arranged for today:

8:30-12:00—Finish judging, business session of Colorado State Dairymen's association.

1:30—Uncle Sam in Partnership With His Farmers, Prof. D. W. Working.

2:15—The Relation of the Railroad to Farming, W. H. Olin.

3:00—The Home Maker, Miss Inga Allison.

3:45—"As the County Agent Sees Things," S. V. Smith, Pueblo county agent.

4:30—Hog Cholera and Its Control, Prof. George H. Glover.

7:30—Poultry in Colorado (illustrated), Prof. W. E. Vaplon.

8:15—Work of County Agent (illustrated), D. W. Frear, Colorado state leader.

The following prize winners in the dairy cattle class have been announced by Prof. G. S. Morton of the State Agricultural college, who did the judging:

Prize Winners Announced.

Pure Bred Shorthorn Bull—First, "Roan Chief," Pine Valley farm; second, "Searchlight," Pine Valley farm.

Pure Bred Holstein Bull—First, "Bairdland-King Segis Posch," George T. Sinton; second, "Bunny," Holland dairy.

Grade Holstein Cows (having had at least one calf)—First, Cloverdale dairy; second, Holland dairy.

Grade Holstein Heifers (over one year, under 2 years)—First, George T. Sinton; second, "Cynthia," Pine Valley farm.

Grade Holstein Heifers (under 1 year)—First, Holland dairy; second, George T. Sinton.

Pure Bred Holstein Cow—First, "Colette Baker, Fourth," George T. Sinton; second, "Patti of Rosemont," George T. Sinton.

Pure Bred Jerseys—First, "Brownie Clover," Cloverdale dairy; second, "Birdie Clover," Cloverdale dairy.

LEIPZIG SECURES COAL OFF COAST OF PERU

LIMA, Peru, Sept. 29.—It is officially announced that the German cruiser Leipzig and the naval tug Marie received coal and provisions from the German steamer Amasis today at Lobos de Tierravan island, off the coast of Peru. The Amasis steamed to Lobos de Tierra from Callao.

The Out West Tent & Awning Co.

cordially invites you to make their store headquarters this week. We manufacture a full line of Stack Covers, Auto Covers, Wagon Sheets, and Canvas Bags.

We also have a big line Wool and Cotton Blankets, Horse Blankets and, in fact, are prepared to fill your wants with almost anything that's made of canvas.

U. S. MAY BECOME ARBITER EUROPEAN ISSUES IN FUTURE

England Suggests Idea That America Act as Court of Last Resort

LONDON, Sept. 29.—Since President Wilson made his statement that peace overtures were premature at this time, English officials have felt reassured and they now express confidence that the United States will, at the proper time, exert its good offices to bring the war to a close under conditions insuring a permanent peace in Europe.

High officials today expressed confidence that the United States, after the continental combatants had become somewhat exhausted by the struggle, would exert a powerful influence for peace and make it possible to negotiate a treaty which would require European nations to submit their future differences to the United States for arbitration, thus making a recurrence of the war impossible.

American View of Situation.

WASHINGTON, Sept. 29.—A desire on the part of British officials to be relieved of responsibility for declining to entertain proposals looking to the restoration of peace in Europe is believed by the state department heads to be the explanation of dispatches from London saying Great Britain will be glad at the proper moment to accept the good offices of the United States to that end.

British officials, as well as the public in England, have taken notice of the many appeals for peace proposals that have been directed to President Wilson from various sources in the United States.

When Time Arrives.

As believed here, the British officials are keenly appreciative of the correctness of the motives of the people and are reluctant to be placed in the position of rejecting any overtures. At the same time, while officials here believe the British government is quite willing to have it unofficially known that at the proper time it will welcome peace overtures, they think that time, as indicated recently by Sir Edward Grey, will not arrive until the conflict has been so decisively settled that there is no longer a possibility of the same issues arising again.

In diplomatic quarters, the attitude of London officials, as outlined in today's dispatches, was regarded as giving a much more encouraging outlook for the ultimate accomplishment of peace.

Outgrowth of Bryan Plan.

It is felt that the first prerequisite is to have England, France and Russia, the nations which have signed an agreement binding themselves not to make peace separately, consider among themselves some basis for treating with the other powers with which they are at war.

The suggestion from London of a treaty requiring European nations to submit their mutual differences to the arbitration of the United States is thought to be an outgrowth of Secretary Bryan's peace treaties recently signed with England, France and many other countries. The essential features of these treaties is in requiring a year's time for the discussion of a dispute before resort to war. In some diplomatic quarters the view prevails that this principle may ultimately be extended as between European powers, so that the initiative of the United States would thus serve to bring together many nations, including those now at war, in a comprehensive plan to avert a precipitate recourse to war.

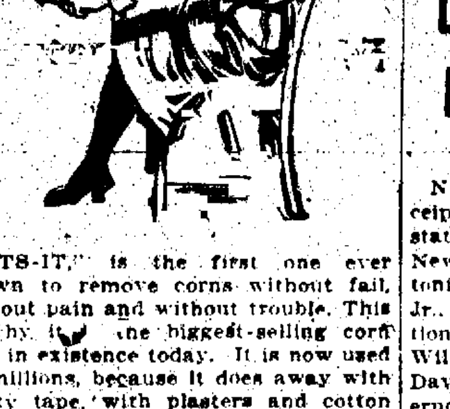

TEXAS HORSES BEING SHIPPED TO ENGLAND

POPLAR BLUFF, Mo., Sept. 29.—A special train carrying 340 horses passed through here this morning en route from Fort Worth, Tex., to Toronto, Canada, where they are to be shipped to Europe for use by the British army. A Canadian in charge of the train said six similar trains were to follow within a few days.

Only Sure Corn Cure Ever Known

'Gets-It' the New Way, 2 Drops Do It

To endure the pains and tortures caused by a little thing like a corn is ridiculous, simply because it is unnecessary. The new-plan corn cure,

"GETS-IT," is the first one ever known to remove corns without fail, without pain and without trouble. This is why it is the biggest-selling corn cure in existence today. It is now used by millions, because it does away with sticky tape, with plasters and cotton rings that shift their position and press down onto the corn, with salves that "raw up" the toe, with "harnesses" that cause pressure and pain, with knives, razors and files, clawing and pulling at a corn.

"GETS-IT" is applied in two seconds. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels, vanishes. Accept no substitute. Try it on any corn, wart, callus or bunion tonight.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

School Shoes for Boys & Girls

CANADA IS PROUD OF EXPEDITIONARY FORCE

Accomplish Marvel in Mobilization; 33,000 Men on Way to Front

MONTREAL, Sept. 29.—The farewell message of Col. Samuel Hughes, minister of militia, to the Canadian troops now on their way to fight for Britain in continental Europe, was made public here tonight. "It shows that upward of 33,000 Canadians of Welsh, Scotch, American and German ancestry have gone to the colors to fight," Colonel Hughes said in his message to them, "for the preservation of the British empire and the rights and liberties of humanity."

The Canadian contingent sailed secretly recently and the date of its departure is still unknown. Colonel Hughes' messages shows that the troops embarked within six weeks from the day they heard the call to arms.

Marvel in Mobilization.

"Soldiers," an abstract from the minister of militia's message reads, "the world regards you as a marvel. Six weeks ago you were at your homes, peaceful Christian citizens. Since then your training camp has been secured, three and a half miles of rifle range—twice as long as any other in the world—was constructed; fences were removed; water of the purest quality was laid in miles of pipes; drainage was perfected; electric lights were installed; crops were harvested; roads and bridges were built; ordnance and army service corps buildings were erected; railway sidings were laid down; woods were cleared, sanitation was perfected so that illness was practically unknown, and 33,000 men were assembled from points, some of them upward of 4,000 miles apart.

"You have been perfected in rifle shooting, and today are as fine a body of officers and men as ever faced a foe. The same spirit as accomplished that work is what you will display on the war fields of Europe. There will be no faltering, no temporizing; the work must be done."

SULZER DEFEATED BY DAVENPORT ON THE PROGRESSIVE TICKET

NEW YORK, Sept. 29.—With the receipt of about two-thirds of the upstate vote and practically all of the New York city returns, it appeared tonight that James W. Wadsworth, Jr., had won the Republican nomination for United States senator over William M. Calder and that Fred M. Davenport had defeated former Governor William Sulzer for the Progressive gubernatorial nomination.

Predictions of both victories are based on the constantly increasing gains for Wadsworth and Davenport in the upstate returns. Wadsworth still is slightly behind Calder, but with 700 districts still to be heard from he is believed to stand an excellent show of winning. An error of about 700 votes in the Greater New York tabulation tonight threw Wadsworth into the lead temporarily on the face of the returns but he really is about 2,000 behind. With 1,000 districts still [illegible] to [illegible] Davenport [illegible] ahead of Sulzer.

Governor Glynn, District Attorney Whitman and Ambassador Gerard continued to add to their pluralities upstate for the Democratic gubernatorial, Republican gubernatorial and Democratic senatorial nominations, respectively.

With a majority of almost 100,000 already established over John A. Hennessy, it appeared that the governor would finish probably 125,000 votes ahead of his opponent. Whitman's plurality probably will be between 50,000 and 75,000. It is believed Gerard's plurality will exceed 75,000.

GOLDEN DISCOVERY

FRANCE BUYS HORSES IN U. S.

WARRENSBURG, Mo., Sept. 29.—Orders were placed today with a local horse and mule firm by agents of the French government for the delivery of 10,000 cavalry and artillery horses in Memphis, Tenn., as soon as they can be obtained.

HAS NARROW ESCAPE IN BIG WIND STORM

GLOBE, Ariz., Sept. 29.—A severe wind storm here late today whirled one house from its foundation. A woman occupant escaped death through the overturning of an iron bed, which supported the wreckage until she was rescued.

SPENCER NOT CANDIDATE

W L. Spencer, whose name has been submitted to the city council as a candidate for appointment to the office health commissioner said yesterday that he was not seeking the office

"My name was given by friends and Mr Spencer last night, 'but they ed without my knowledge or consent I am not a candidate and will not be one I appreciate their thought me in this connection, but I do not aspire to the office and have so advised the city council'

Greatest Event in Woman's Life

All human experience looks back to motherhood as the wonder of wonders.

The patience, the fortitude, the sublime faith during the period of expectancy are second only to the mother love bestowed upon the most helpless but most marvelous creation a baby.

Women are quick to learn from each other those helpful agencies that aid to comfort and yet are perfectly safe to use and among these they recommend "Mother's Friend."

It is entirely an external application designed to lubricate the broad, flat muscles and skin that protect the abdomen. It has been in favorable use for nearly half a century and is known to mothers in almost every settled community in the United States who highly approve of it. You will find it on sale in drug stores. "Mother's Friend" is utterly harmless contains no dangerous drugs, very beneficial, very soothing and a wonderful help.

Get a bottle of Mother's Friend today at any drug store and write to us for our instructive little book to mothers. Address Bradfield Regulator Co, 312 Lamar Bldg, Atlanta, Ga.

COUNTY COMMISSIONERS DEFY STATE COMMISSION

Notify Tax Board that Increase is Unjust; Will Not Yield Unless So Ordered by Courts

The county commissioners have notified the state tax commission that the increase of $935 640 in Assessor R. J Gwillim's valuation in El Paso county is unjust, that all property is assessed at its full value, and that the increase will not be made unless it is ordered by the courts A resolution declining to comply with the order of the commission has been adopted by the commissioners Replying to the resolution, the commission insisted that the commissioners increase the valuation as ordered The commission will have to force the increase in valuations the commissioners say

The courts compelled Denver Weld and Pueblo counties to increase their valuations last year, as directed by the tax commission," said Van E Rouse, president of the board of county commissioners, yesterday We won't make the increase In the first place the county commissioners couldn't make the increase if they wanted to Assessor Gwillim has fixed the valuations

No Reply From Commission.

"We have asked the tax commission to suggest what part of the county or what articles have been assessed too low but they have given us no reply. They simply insist that we make the increase and we refuse to do it If the increase is ordered by the court then we will ask the court to tell us whether it is to be made on property valued by the assessor or whether it is to be made on the public utilities valued by the tax commission, or on both The commission alone can increase the public utility valuations

"If Assessor Gwillim is compelled to make this increase, bringing the total assessed valuation of the county to $69,416 045 it will mean a general increase in valuations of about 14 per cent The assessor's valuation is about $500,000 less than last year If he has missed any property it is up to the tax commission to find it

County Tax Levy to Be Less Next Year

According to Van E Rouse of the board of county commissioners, the county tax levy next year may be at least one-half mill less than it is at the present time. The levy now is 5 1 mills. Commissioner Rouse said yesterday that he will ask a conference between the county commissioners, the board of education and the city for the purpose of securing if possible a general reduction in the levy next year.

It is pointed out that for this year it was necessary to appropriate $17,000 for election expenses and $23 000 to meet outstanding warrants held over from previous years The county also has expended or contracted to expend approximately $46,000 for new bridges. Commissioner Rouse estimates that about $30,000 has been used in replacing bridges that were washed out As permanent structures were built this expense is not expected next year

MRS. HELEN BALLOU ON HER WAY TO HOME HERE

Word was received here yesterday that Mrs Helen Ballou of this city, who has been stranded in Munich for nearly two months sailed for Montreal, Canada from an English port on the steamship Hesperian Monday, September 21 Mrs Ballou was unable to get into communication with her friends for several weeks It was only when the cable service was resumed that she procured funds to enable her to reach England

She will spend several days in Montreal visiting friends, and expects to arrive in Colorado Springs about the middle of October

ASSOCIATED CHARITIES TO HOLD ANNUAL MEETING

The annual meeting of the Associated Charities will be held Monday, October 5, according to plans made yesterday at a meeting of the subcommittee A report of the year's work will be submitted and the election of directors will take place The meeting probably will be held in the council chamber of the city hall

PUBLIC OPINION IS GIVEN STATE PRINTING

The contract for printing official advertising of the new laws and amendments to the constitution under the initiative and referendum for the coming election has been let by Secretary of State James B Pearce to Public Opinion, a local Democratic weekly paper

VAPLON TO TELL SECRETS ABOUT RAISING POULTRY

W E. Vaplon of Fort Collins will speak to the poultry men of the city tonight at 7 30 o'clock, at the Chamber of Commerce rooms His subject will be "Poultry Raising in Colorado," and the lecture will be illustrated with stereopticon slides, Mr. Vaplon recently returned to Colorado from Indiana, where he was on the staff of the Purdue Agricultural college at Lafayette The lecture is to be given under the auspices of the Central Colorado fair

SUBSCRIPTIONS ASKED TO PRINCE OF WALES FUND

T MacLaren, 320-322 Hagerman building, has been authorized by the United British societies of Denver and Colorado to act as their agent in Colorado Springs for the "Prince of Wales National Relief Fund," an organization whose purpose it is to relieve the distress of British families caused by the war The attention of the Cymrodorian and Caledonian societies of this city and all others of British birth or descent is called to this fund. Subscriptions may be made to Mr MacLaren.

Feed Crops Predominate at Exposition

Agricultural Expert Sees Great Progress

The predominance of feed crops at the Central Colorado exposition is a most encouraging sign of the trend of the times according to Prof H M. Cottrell agricultural commissioner for the Rock Island railroad, who is attending the fair

"Ten years ago the farmers disregarded them entirely he said yesterday, "now they are beginning to realize that a brilliant future is contained in that field of agriculture

"The whole object of our campaign in Colorado has been to get the ranchers interested in growing those crops " said Professor Cottrell "We have been working for that end for more than 10 years, and it is very gratifying for me to witness its start"

Ranchers and farmers will make rapid strides now that they are headed in the right direction, in Professor Cottrell's opinion "They will make more progress in the next three years than they have in the last nine," he said

Professor Cottrell is attending the exposition in the capacity of special lecturer He has been addressing the state dairymen's institute on Dry Farming"

Coming out of the lecture room yesterday he said that the interest of the farmer was more and more turning in the direction of seed selection "That is what we are trying to encourage now he said

"High altitude corn milo grasses and other products can reach perfection only through seed selection he remarked Farmers are asking for information relative to this and we are only too glad to give it to them

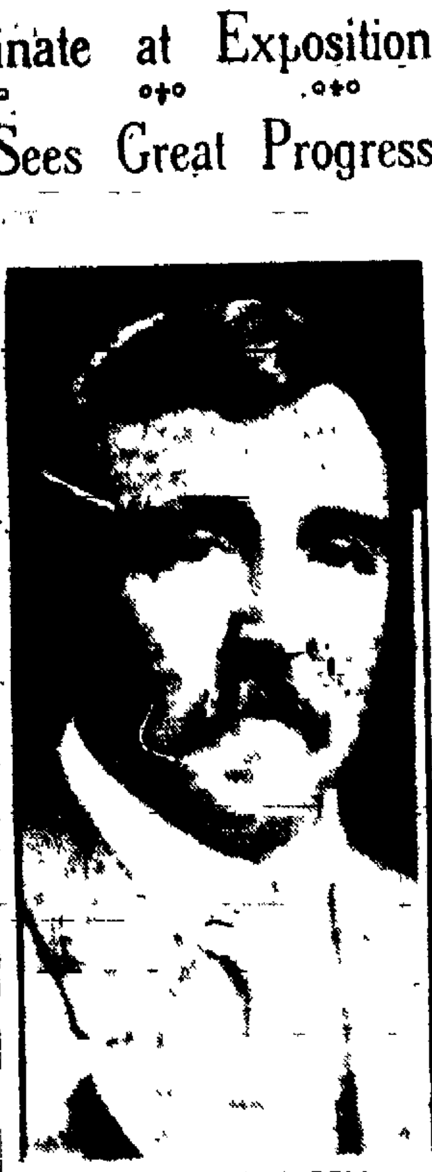

The Central Colorado fair is the first to give due prominence to feed crop exhibits Mr Cottrell has been traveling and working through Colorado for many years and he said yesterday that this is the first time he has seen such exhibits in abundance

The interest of people in the rural districts is turning more and more in the direction of selected crops Their cattle both dairy and livestock, is fattened by specially grown milo In connection with this the pit silo has played an important part

"The silo campaign has spread all over the state" he said "Farmers are growing selected crops to put in their silos and feed their cattle during the winter

"Your exposition is the start of a big campaign Farmers from all parts of the state have brought in exhibits Their crops are, for the greater part, feed crops When you get hundreds of farmers producing these and sending them here for exhibition it means that there is something doing We have worked to this end From now on they will progress three and four times as rapidly

Professor Cottrell will lecture at the institute today From here he will go to Chicago

PROF. H. M. COTTRELL

M.W.A. ADDITION NOT TO BE BUILT UNTIL LATER

Industrial Conditions Do Not Warrant Big Expenditure at Present, Says Head Consul Talbot

Because industrial conditions do not warrant the expenditure of large sums at the present time the new buildings planned for the Modern Woodmen sanatorium will not be constructed until later according to Head Consul A R Talbot, who arrived in this city yesterday to attend a meeting of the board of directors of the sanatorium

"Things are pretty much at a standstill on account of the war said Mr Talbot "and we do not feel that with present uncertain conditions prevailing, it would be wise to rush ahead too fast The sanatorium is well established and doing fine work as it is and no harm can be done by resting for the time being with what we have accomplished We are well equipped and are making improvements all the time The sanatorium is doing a great work, and later on we can move forward to greater things"

Mr Talbot declared that the Woodmen order is in splendid shape and that the membership is growing rapidly The rate question he said involving the increase in dues is before the supreme courts of Illinois and Iowa and may not be settled for some time The directors who arrived yesterday to meet with Mr Talbot are E R Korns and R R Smith James McNamara, the new head clerk is also here on his first visit to the sanatorium

Societies and Clubs

Tickets for the banquet of the Business Womens club to be held at the Y W C A next Monday night may be secured from Miss Parsons or Miss Ramey Reservations should be made not later than Saturday night

The Womans Missionary society of the Boulder street Presbyterian church will meet at the home of Mrs G S. Whitley, 734 East Kiowa street at 2 45 o'clock tomorrow afternoon

Beautiful hand embroidered letters to order, by Harriet Curran, 14 E P Peak Ave Adv

The Thanksgiving proclamation was originated by Francis Bernard, captain general and governor-in-chief over his majesty's province of the Massachusetts bay." It was issued November 4, 1767, and the form was that which has been in substance adhered to ever since.

Stopped Those Pains

"Copper Hill, Va.—Mrs. Ida Conner, of this place, says, "For years I had a pain in my right side, and I was very sick with womanly troubles. I tried different doctors but could get no relief I had given up all hope of ever getting well I took Cardui, and it relieved the pain in my side, and now I feel like a new person. It is a wonderful medicine." Many women are completely worn-out and discouraged on account of some womanly trouble. Are you? Take Cardui, the woman's tonic Its record shows that it will help you Why wait? Try it today. Ask your druggist about it. Adv

COBURN BOOK CLUB HAS SPECIAL 'WAR LIBRARY'

Many Important Volumes Dealing With European Situation Available to Club Members

The Coburn Library Book club is [illegible] the use of [illegible] and many important publications relating to the European situation and the past significant political movements as well as books now being published are being purchased

The Book club was organized [illegible] years ago by Leslie J Skelton and since that time has turned over to Coburn library more than [illegible] volumes The plan of the club is to purchase books keep them on the club's shelves for about two years and then turn them over to the college library From 400 to 500 volumes are purchased annually The main library is assisting in the war shelf plan and is placing all its best books along with these in the club room Information about joining the club may be secured from the librarian the club secretary or any member of the following committee Miss E F Brinley Mrs L J Skelton Mrs [illegible] M Touzalin Rev M D [illegible] President W F Slocum Leslie J Skelton and Dr Henry C Watt Mr Skelton is president of the club and Miss A R Endicott secretary

Committee Sends Out Letter.

In view of the general interest in the war the club has sent a letter to members calling attention to books dealing with war time Europe as follows

At a recent meeting of your committee it was suggested that owing to the great interest being taken in the European war and the countries affected by the conflict the books recently purchased by the club or in the main library relating to this subject be as far as possible assembled on a special shelf in the club room The present list contains the names of many of the most important works representing all sides of the situation An order has also been placed in New York for new publications to come forward by express

It will be the policy of the club during the coming winter to add any important new publications Your committee will endeavor to select the ablest works by recognized authorities in England France Germany and America on the war situation and its consequences Everyone is intensely interested in the war everyone is more or less hurt by it and all are hoping for universal peace as its final result therefore your committee feels that it will be doing an important work for the club members by thus furnishing the latest thought on the subject In order to carry out this policy it is hoped that there may be a largely increased membership for the club this winter

Books on War Time Europe

The books purchased by the [illegible] [illegible] separate shelf in the club [illegible]

Angell Norman The Great Illusion

German Crown Prince Looted Famous Chateau of Treasures, Is Charge

PARIS Sept 29 Crown Prince Frederick William during the first days of the battle of the Marne had his headquarters at the chateau of the Baroness de Baye near Champaubert Marne, famous for its collection of art objects The Baroness de Baye writes says the Paris Temps, thus

"The crown prince plundered the whole place He stole medals old arms rare and precious vases tapestries icons cups and gold souvenirs most dear to my family He caused to be packed choice pictures and pieces of furniture but some of these cases were left in the hasty flight of the Germans

The baroness affirms according to the Temps that the German crown prince stamped with his heel on the portraits of the Russian emperor and empress in the chapel of the chateau.

ENGLAND INTERFERES WITH SHIPMENT OF COPPER BY THE U.S,

WASHINGTON Sept 29.—Interference by the British government with American copper shipments to Rotterdam in neutral ships was called to the attention of the senate today by Senator Smoot of Utah, who read a telegram from the International Metal Smelting company of New York urging him to make representations to the state department

The telegram said the action of the British government seriously endangered the copper industry and was unreasonable "British royal proclamation and second Hague conference stipulations it said do not mention copper as even conditional contraband Unless shipments of copper to neutrals can be kept open afraid further reduction of production is inevitable "

DEAN SUMNER GOES TO OREGON DIOCESE

JAPS DRIVE GERMANS FROM FORTIFICATIONS

Face Grilling Onslaught From Warships; Aeroplanes Fired Upon

NEW YORK, Sept 29--A cablegram received from Tokio tonight by the East and West News bureau here contains corroboration of press dispatches to the effect that a Japanese besieging army yesterday morning began an attack on the German advanced position outside Tsing-Tau, the seat of government of the German concession of Kiau-Chow.

The cablegram says that "braving formidable cannonading from the fortress and warships, the Japanese army succeeded in driving out the enemy from his position and occupying at noon of the same day the heights that command the German main defense line. During the fighting, the cruiser Elizabeth and other warships in Kiao-Chow bay cannonaded vigorously the flank and rear of the Japanese army."

Thereupon the Japanese fleet, as announced in press messages, aided the army by bombarding Fort Iltis, according to the cablegram which gives the additional information that an English force under command of Major General Barnardiston took part in the general attack holding a position in the Japanese center.

The cablegram declares also that while German warships were shelling the right wing of the Japanese army, Japanese aeroplanes made a counterattack and dropped bombs on the warships. The cablegram concludes:

"One of the aeroplanes received several shots from machine guns mounted on German warships and the other a hail of rifle bullets, without, however, harming either the aeroplanes or aviators."

NO CUT WILL BE MADE IN PRICE FOR SUGAR BEETS

DENVER, Sept 29--Announcement was made here today by the Great Western Sugar company that payment to growers for sugar beets this year will be made according to prices in effect last year instead of the lower scale agreed to last spring. It was explained that this year's scale called for an average of 60 cents a ton less than a year ago, based on the predicted effects of a reduction in the sugar tariff--but that conditions brought about by the European war have prevented a drop in the price of refined sugar.

CHINA WILL MAINTAIN THE STRICTEST NEUTRALITY

CHICAGO, Sept 29.--China will maintain strict neutrality, according to General Hwang Hsing, Chinese minister of war in the cabinet of Sun Yat Sen, who arrived here today.

"I do not think more than a show of protest will be made against the Japanese journey across China's land," he said. "China does not want war, and knows better than to array itself against the allies, who are its friends."

It is estimated that there are 4,258,000,000 tons of iron ore unmined in the United States.

COL. GORDON ALIVE, BUT IS IN PRISON

LONDON, Sept. 30 (Wednesday).--Col W E Gordon of the Gordon Highlanders and aide-de-camp to King George, who has twice unofficially been reported killed is a prisoner in Germany and in good health. This news was conveyed to the British war office through the American ambassador at Berlin, James W Gerard.

Colonel Gordon, who won the Victoria Cross in the Boer war, was in command of the Gordon Highlanders early in September when they were surprised. They advanced toward a German detachment in the mistaken belief it was a French picket and many of the Highlanders were shot down. One of the regiment who escaped said he had seen the body of his colonel among the dead.

C. H. Bighie, Friend of Mark Twain, Is Dead in California

GREENVILLE, Cal. Sept 29--Calvin H Highie intimate friend of Mark Twain in Virginia City, Nev., during the early 60s died here today following an attack of pneumonia.

Like many of the pioneers of Nevada and California Highie was at one time wealthy but lost his money in speculation and died poor. He was a civil engineer.

ALLIES SMASH GERMAN RIGHT WING, SAYS PARIS REPORT; FLIGHT BEGINS

(Continued From Page One)

to sweep across the plains in northern Hungary, but in strength toward Cracow, which they may reach before the week is out, unless the Austrian field army succeeds in checking the advance. Their arrival at Cracow would be the signal for a battle along the Russian-German frontier.

The Germans are in force at Cracow, where the Austrians would form their extreme right, and they have considerably reinforced their front extending north of that fortress through Kalisz, Russian Poland, to Thorn, in the province of West Prussia. Further north they have crossed from East Prussia and have got as far as the river Niemen, where they are reported to have suffered a reverse. The two armies, however, are in close touch right across the country, so that a battle along this extended front cannot be long delayed.

CZAR PLANS INVASION OF GERMANY SOON

The Russian emperor's immense armies will oppose the Germans at every point and will themselves try to invade Germany in more than one district.

Of the operations around Sarajevo, nothing has been heard today but the Servians and Montenegrins must soon be ready for a grand assault on that city which beyond all others, the Servians would like to occupy.

The Austrians also are being attacked at Cattaro, where, in addition to land operations by the Montenegrins, the French and English fleets are making an effort to reduce the fortress.

There is some talk of Italy, Roumania and Turkey becoming involved in the war, but for the moment Italy is being held back by the government. Turkey, it is believed, would like to take a hand in the hope of recovering some of the territory she lost in the Balkan war but the moment she does, Greece will be in arms against her, which also would be the signal for Roumania to come in.

CRUISER EMDEN SINKS FOUR MORE STEAMERS

The German cruiser Emden has again been busy in East Indian waters and, besides sinking four British steamers, making nine to her credit has captured a collier which will insure her mobility for another week or more.

The British government is taking steps to put a stop to the coaling of the few German cruisers which are at large. On different occasions the government has made representations to the governments of the countries from which these vessels get their supplies and is also hunting down the colliers.

Dutch steamers are being examined and in this way a check has been put on commodities being shipped to Germany through the Netherlands. The big Dutch steamship lines announce that they will only accept cargo from America consigned to the Netherlands government, which, to avoid a breach of neutrality, must see to it that this cargo does not get into Germany.

Fishing by neutral vessels on the east coast of England and Scotland has been prohibited.

Following the example of Irishmen prominent Welshmen, headed by the Earl of Plymouth and David Lloyd-George, chancellor of the exchequer have set out to raise a Welsh army corps for service on the continent.

GREAT BATTLE ON EASTERN BORDER NOW IS IMMINENT

(Continued From Page One)

mostly belong to the landsturm" continues the dispatch. "Heavy fighting in that region may be expected soon. Owing to the boggy ground, the heavy guns of the Germans can be placed only on railway embankments."

Russians Control Railroads.

LONDON, Sept 30--(Wednesday).--"A message from Vienna, dwelling on the Russian advance through Galicia, says that the Russians are in possession of all the railways in the district of Przemysl and are advancing rapidly in two lines" says a dispatch from the Rome correspondent of the Exchange Telegraph company. The correspondent continues:

"The northern column of Russians has made an assault on Tarnow, the last obstacle between it and Cracow and distant from the latter place only 50 miles. The southern column, after occupying Sanok, has advanced westward with the intention of cutting off the retreat in that section of the Austrian army which is being driven southward.

"Indications are that the Russians do not intend to capture Cracow but to leave it cut off and surround and then to advance toward Breslau, hoping to join the Russian center now in Poland."

Germans and Russians Clash

PARIS, Sept 30--(Wednesday). An official communication issued at Petrograd and received by the Havas agency says:

"In the region of Ossowetz and Dreskeniki on September 28 the Russians attacked the Germans furiously. A new attempt by the Germans to cross the Niemen failed and a violent combat took place for possession of the northern routes of the forest of Augustowo. This town is occupied by Russian troops.

"In Galicia the Austrian rear guard has suffered another defeat near Douklo and abandoned their cannon and 400 wagons.

"In the region of Kosno Galicia the Russians have taken 200 prisoners belonging to 22 different regiments."

BANKERS PROTEST AGAINST WAR TAX

Senate Considers Number of Changes in Bill as It Passed House

WASHINGTON, Sept 29--Reduction of the proposed tax of $2 a thousand on bank capital and surplus is contemplated by Democrats of the senate finance committee, who are now deliberating on the war revenue bill which passed the house last week. The suggestion has been made that disturbed financial conditions due to the European war and revision of the currency laws make it unwise to levy so heavily on bank capital at this time and it has been proposed to cut the assessment in half.

Those who favor this action in view of protests that are pouring in from bankers all over the country, would provide for the loss in revenue thus occasioned by an automobile tax, to be substituted also for the tax of two cents a gallon on gasoline now provided in the bill.

An automobile tax based on horsepower it is said would yield an enormous revenue enough to make up for the estimated $20,000,000 which would be derived from the gasoline tax and the amount to be lost if the bank capital levy should be reduced one-half.

The senate committee also is considering readjusting the proposed tax on insurance policies with the probable elimination altogether of a tax on accident insurance.

Today the committee decided not to grant hearings on the bill, but it will give heed to all written communications. Chairman Simmons said he hoped to have the measure ready for a report to the senate before the end of the week.

COMMERCE BETWEEN U.S. AND EUROPE REGAINING NORMAL PROPORTIONS

WASHINGTON, Sept. 29--Commerce between the United States and Europe is rapidly regaining normal proportions. Secretary McAdoo of the treasury department announced tonight that in the last several days reports from shipping centers showed material increases in the export trade.

Yesterday 20,732 bales of cotton were shipped to European points. This is the largest amount shipped in a single day since the war began. Of the 20,732 bales, 2,360 were exported from New York 1,250 from Savannah and 17,122 from Galveston.

U. S. CRUISERS NO[W] MEDITERRANEAN

WASHINGTON, Sept 29--Orders fo[r] the armored cruiser Tennessee, now at Falmouth, England to proceed [at] once to Brindisi, Italy, were issued by the navy department tonight.

Brindisi is on the Adriatic coast [of] Italy, directly across the Strait [of] Otranto from Turkey and is within [...] miles of the Ottoman empire. T[he] cruiser North Carolina is already [in] Mediterranean waters, having been dispatched there at the request of Secretary Bryan following reports from Ambassador Morgenthau at Constantinople concerning [...] Americans and other[s] there.

The presence of the [Te]nnessee in addition to that of the North Carolina, in Mediterranean waters is expected to have a salutary effect.

COLORADO CROPS ARE IN GOOD CONDITION

DENVER, Sept 29.--The weather and crop report for the week ending Monday issued today by the local weather bureau said:

"All crops are in excellent condition and harvests are well along. Dry ground has made beet digging hard in northern counties. Blight affected beets to some extent, but the blighted plants have tested as high in sugar as those unaffected. Grapes are nearly all gone in the Canon City district and apples in that vicinity are reported as the best colored and largest ever raised there."

SCENES FROM KALEIDOSCOPIC WAR DRAMA IN EUROPE

State Historical and Natural History Society

Above (at left)—French artillery passing through Chauconier, near Meaus, on the river Marne in pursuit of Germans who hastily evacuated the city with the French advance. (At right). Bridge near La Ferte, blown up by British troopers to hinder German advance.

Below—German commandent and officer charged with reorganizing the schools of Dinant, inspecting the ruins of the city following its bombardment by their troops.

RUSSIA WILL BE DRY INDEFINITELY

...Edict ... Based on Improved Conditions Among People

PETROGRAD, Sept. 30.—The minister of finance today received an order to the effect that the prohibition of the sale of vodka shall be continued indefinitely after the end of the war. This order is based principally on the ...ously improved condition of the country since the emperor issued the edict prohibiting traffic in the liquor.

... ...s arriving from southern Rus- sia say there is such a change in that region that the country is hardly rec- ognizable. Peasants who before the war had fallen into hopeless indolence and depravity, already have emerged into self-respecting citizens. The ef- fect on ...ter is already visible in neatly ... clothes instead of the former ragged and slovenly attire. Huts which formerly were dilapidated and allowed to go with... repairs, are now kept in first-class condition.

Money Goes to ...

The towns have become more or- derly and the peasants indulge in wholesome amusements. The people now save 55 per cent of their earnings, formerly spent for drink, and they have increased their earning capacity through sobriety. The extra money is now devoted to the necessities and comforts of life.

This startling regeneration of the peasantry, in the opinion of the Rus- sian authorities, is likely to have an important effect on the social and economic conditions of all Russia.

A change in the large cities also is noticeable. Liquor still is sold in first-class cafes, but these are prac- tically empty. The Nevsky prospect, once famous for its gay midnight life, is now quiet without a sign of revelry.

MOOSERS OPEN AUTO CAMPAIGN; SPEAKERS AROUSE ENTHUSIASM

People in All Towns Visited Show Keen Interest in Stumping Tour

Special to The Gazette.

GREELEY, Colo., Sept. 30.—The Pro- gressives started their whirlwind campaign by automobile most pro- pitiously today, and seven towns be- tween Denver and Greeley were vis- ited. Short stops were made at Brighton, Fort Lupton, Platteville, Gilcrest, La Salle and Evans, the day's tour ending in a big meeting in Gree- ley tonight. E. P. Costigan, Merle D. Vincent, Benjamin Griffith and Dan D. Casement, who has done much to arrange the auto tour of the party candidates, expressed pleasure tonight with the success of the first day's "campaign of personalities."

People Show Keen Interest.

Every town along the route showed keen interest in the candidates and their message. The big touring car is equipped with a fire engine shell ... draped with flags and banners, and its progress across the state is attracting wide attention.

The earnestness and directness with which the candidates deliver their message to the voters of Colorado car- ries conviction, and at every stop men and women scramble for literature, es- pecially that which contains a parallel comparing the Progressive platform with Roosevelt's letter.

Hundreds of Greeley people were out tonight at the street meeting, which was addressed by Costigan, Griffith and Joseph C. Ewing, the latter a can- didate for judge of the supreme court. Short talks were also made by J. W. Gault, candidate for the state senate, and F. H. Curtis, candidate for county superintendent of schools.

Will Reach "Silent Voters."

Dan D. Casement declared tonight that the novel undertaking heralds a new era in political methods, and that it is meeting with splendid response from the people.

"We Progressives intend to carry our fight to the individual voter," he said. "We will get acquainted with the sin- gle elector and tell him of the things for which our candidates stand as in- dividuals. There is a great 'silent vote' among the people of Colorado, and the people who go to make up that con- stituency are of the most intelligent sort. It is these we intend to reach, as well as all other classes, so that no man or woman in Colorado will be ig- norant of our candidates, their quali- fications, their ambitions or their prin- ciples."

The campaigners expect to reach Fort Morgan tomorrow evening after a number of stops during the day.

BARBECUE TO CLOSE CENTRAL FAIR HERE

Final Day of Exposition to Draw Big Crowd; Many Visitors Coming

Today is Farmers' and Rural Home- makers' day at the Central Colorado exposition, and the last day of the fair. This morning and afternoon visitors and foreign delegations will be shown the exhibits. Tonight at 6 o'clock a barbecue and entertainment will be held in the tent. Mark Raftry is in charge of the feast, and preparations for nearly 1,000 people have been made. Wienerwursts, roast meats, celery, ap- ples, cookies and many other barbecue delicacies will be served. Musical se- lections will be given during the din- ner on phonographs. ... the dinner moving pictures of agricultural scenes in the Pikes Peak region, taken during the su... by the Chamber of Commerce, will be shown. Ri...ings, feats of ... and several other fea- tures have been planned.

Visitors Should Register.

Farmers, farm women and their families will be the guests of the Cham- ber of Commerce at the tent barbecue. They are requested to register at the association rooms so that they may receive free tickets. A small admission will be charged the townspeople. The big tent will be cleared for the occa- sion and everything except the ex- hibits will be taken out.

The exposition tent has been filled with visitors for the last two days, and up to 10 o'clock at night throngs of people have crowded the brilliantly lighted enclosure. Still larger delega- tions are expected today. A special automobile parade from Pueblo will arrive this morning to visit the fair. More than 25 cars, carrying at least 150 people, are expected. Farmers and

ALLIES HAMMER GERMAN RIGHT WING TO BREAKING POINT IN 19-DAY BATTLE

Anglo-French Armies Direct Supreme Attack on West End of Battle Line; Furious Fight- ing Continues on German-Russian Border; Czar's Mighty Army Is Sweeping Through Galicia

LONDON, Sept. 30.—The nineteenth day of the battle of the Aisne finds the allied armies pushing with all the strength they can bring to bear in their great effort to outflank the German right wing and force it back from its lines of communica- tion through Belgium. There is evidence that this movement is beginning to tell, and that unless something unforeseen happens this portion of the German army must fall back to another defensive line.

The French official report issued this afternoon says the action continues to develop to the northward, so that the French left must now be pushing toward Cambrai, as yester- day it was in the neighborhood of Albert.

... farther ... than this, the French cavalry are operating, and last week a German force which was sent to Orchies, 16 miles southeast of Lille, to punish the Franc-Tireurs for an alleged attack on a German hospital at that place, met with superior forces, and had to fall back.

The Germans, too, admit that they have been unable to arrest the French advance against their right and also that the allies have advanced on their right front. Indeed, there seems to be some agreement in the official reports of the belligerents on the events in this part of the battlefield.

CENTER RESTS ON FATE OF TWO END WINGS.

The German reports refer to an ad- vance of the allies, while the French communication says that a vigorous attack made by the Germans on Tracy- le-Mont, northeast of Aigue, was re- pulsed with heavy losses. Of course, these reports may refer to different in- cidents, but they nevertheless agree that the advantage is with the allies.

In the center, from Rheims to the Meuse, the armies appear still to be waiting for the outcome of the fighting on the wings, as there has been a lull in the battle there.

Between the Argonne and the Meuse, and again in Woevre, there has been more severe fighting. The French claim to have made slight progress and to have advanced at several points, especially to the east of St. Mihiel.

FRENCH GET BEHIND LINE OF THE GERMANS.

Although the French staff is very sparing with its information, it is evi- dent that the forces which advanced from Toul to oppose the Germans, who crossed the Meuse near St. Mihiel, have succeeded in getting behind the small contingent of invaders, who had carried out an attempt to bend the French line at this point. Other offensive move- ments by the French between Verdun and Toul were repulsed, however, ac- cording to the German report.

In Lorraine and in the Vosges there has been no change in the situation. Here, too, the armies seem to be await- ing the result of the greater contest going on further west, where, British experts believe, the allies have at last firmly set the claws of their left in the German right wing under General von Kluck.

RUSSIANS SWEEP THROUGH GALICIA.

The Russian armies continue to sweep through Galicia, and, according to a report from Rome tonight, that province of the Austrian empire is clear of Austrian troops. What is meant is that the field armies of Aus- tria have either gone into the for- tresses of Przemysl or Cracow or re- treated to the south and west.

The Russians have come across the country in great parallel lines and, masking Przemysl, have swept the country clear as far as a line from Douklo in the south to the neighbor- hood of Rzeszow in the north, while other forces have pushed their way through the passes of the Carpathians

(Continued on Page Four.)

GERMAN RETREAT ALREADY SET IN

LONDON, Oct. 1—(Thursday).—A Rotterdam dispatch to the Daily News says:

"Dispatches from the south indi- cate that preparations for the re- treat of the German right have al- ready begun. German troops have been observed coming from the north of France toward Tournai and Mons prepared to cover the main army in case of retreat."

LONDON, Oct. 1—(Thursday).—A dispatch from Ghent to the Ex- press, dated Wednesday, declares that the Germans have built five heavy pontoon bridges across the river Meuse between Givet and Namur, apparently to facilitate their retirement from France. All their wounded, the dispatch says, have been removed from Brussels.

GERMANS SUFFER DEFEAT

Russians Extend Front in East Prussia Despite Stern Opposition

VENICE, Oct. 1—(Thursday).—The news of the beginning of the Russian invasion of Hungary is exciting the greatest apprehension throughout the monarchy despite all official assurance that the action is without importance and should give no occasion for anx- iety.

The work on the fortifications around Vienna is being hastened and an of- ficial warning has been issued to the public against entering certain areas on penalty of arrest and danger of be- ing shot by the sentries.

The Asiatic cholera is spreading rapidly, cases being reported daily in Vienna and in various other districts. Scores of cases already have been found in Galicia, whence the disease has spread.

Keep Public in Dark.

VENICE, Oct. 1—(Thursday).—The Vienna papers daily are publishing re- ports of German and Austrian ...cesses in the eastern and western the- aters of war.

The Neues Weiner Journal declares that the German troops are going on from victory to victory and that the great French army soon will be forced to retreat before the resistl... German advance. In the Austrian prov... the press is even more ... especially in south... Austria where the Slav journals ... such ... ...narily glowing ... that the ... ants believe the Ge... ... in Paris.

Women Are Complaining.

Lately the educated classes in ...tria are beginning to show ... dissatisfaction at ... lack of reli... ... ... The ... per ... are trying to ... them with the explanation that ... difficult to obtain exact news from the battlefields and urge them to have pa- tience. Some public demonstrations are reported to have occurred in Vienna and Gratz.

Financial conditions in Austria- Hungary show some improvement. The banks are paying out more money and trade accounts are being settled more promptly. At Trieste, coal importers who are desirous of obtaining supplies from America have asked the Austrian government to give definite assurance that coal imported from America in American bottoms will not be con- fiscated for military purposes. Their inquiries have not yet been answered.

Germans Held Back.

LONDON, Oct. 1—(Thursday).—The Petrograd correspondent of the Morn- ing Post has sent the following dis- patch:

"The Germans continue to attempt a passage of the Niemen river, Rus- sian Poland, but so far they have been unsuccessful. It is obvious that their forces are increasing, for their last at- tack covered ground extending from Ossowetz to Symno (both these towns

(Continued on Page Four.)

FLOATING MINES ARE MENACE TO ITALIAN VESSELS

ROME, Sept. 30.—Details of the de- struction of a fishing boat off Rimini by a floating mine show that the fish- ermen mistook the mine for a wine cask, which they sought to recover.

Throwing out a line, they drew the supposed cask toward them, and when it touched their craft an explosion occurred. The boat was blown to pieces and all the nine men on board were killed. Members of other fishing crews in the vicinity were wounded by fly- ing splinters.

Naval experts express the opinion that hundreds of mines from the Aus- trian coast are floating toward Italy and, as a consequence, all steamship lines operating to Dalmatia, Montene- gro, Albania and Greece from Italian ports have suspended sailings.

Seafaring interests demand that the government require prompt and thor- oungh satisfaction from Austria. Float- ing mines in the Adriatic, according to the announcement made today, al- ready have caused 19 deaths, which have aroused Italian feeling against those responsible.

It is recalled that at the time of the Italo-Turkish conflict Austria protest- ed because a flotilla of torpedo ... under command of the Duke of the Abruzzi approached the ... ... of the Adriatic.

Help the Red Cross Society

Members of the Committee of One Hundred of the ...es Peak chapter of the American Red Cross society ...e started their intensive campaign for funds to aid in ...viating suffering on the battlefields of Europe.

To date nearly $3,400 has been raised, and those who ... soliciting contributions are meeting with marked ...cess.

It is likely that someone who is cheerfully devoting ... or her time to the work will call on you today. You ... under no obligation to contribute a penny although ...rally it is your duty to aid the work of the Red Cross ...iety in whatever way you can.

Just a word of precaution. Do not give money to ...one soliciting Red Cross funds unless they carry ...per credentials signed by Dr. Mary E. Noble and ...ntersigned by Helen M. Curtis, or unless you per- ...ally know the solicitor.

Contributions may also be left at any of the banks ... at the offices of The Gazette and Telegraph.

Italian Gun Plants Work Night and Day to Equip the Army

ROME, Sept. 30.—Factories manu- facturing big guns are working night and day to finish the supply of modern cannon which has been ordered for the Italian army. The firms hope to be able to hasten the work to such an extent that the whole army will be provided with the cannon in a few weeks.

An order has been issued to hasten the preparation of the supply of pro- visions and ammunition for the troops.

Signor Monti-Guanieri, deputy from Pesaro, recently called on the ministry of war for an explanation of the delay in the manufacture of cannon ordered from Italian firms. Parliament not being in session the interrogation has not been answered as yet.

It was semiofficially stated that the question concerned 87 field batteries. The delivery of guns of the 75-milli- meter type was delayed owing to a modification in the specifications made after the order had been given.

ARABIC ARRIVES WITH 500 AMERICANS FROM WAR ZONE

BOSTON, Sept. 30.—The White Star liner Arabic, with 500 American tourists from the war zone aboard, arrived to- night from Liverpool and Queenstown.

GERMANS SUFFERING UNTOLD HARDSHIPS IN ARMY TRENCHES

LONDON, Sept. 29.—A picture of the sufferings of the German troops, cramped in miles of underground trenches and galleries along the Aisne river is given by the Paris correspondent of the Daily Mail. He says the autumn weather with its warm sunshine in the daytime, damp nights and bitterly cold dawns, is extremely trying to the men who are compelled to spend every minute in the same section of the damp, depressing trenches.

If the men step from their trenches to the level ground they do so at the risk of their lives. At night the chances of an unexpected attack from the allies' infantry are so great that every German soldier must be at his post in the narrow ditch which is his home and defense, sleeping as best he may with his rifle at his side, ready to spring up at any moment at the alarms which have come very frequently these dark, cloudy nights.

The nerves of the sentries are sorely tried. They mistake the most innocent sounds for French infantry creeping up. When a sentry, tricked by his nerves, fires his rifle he brings the whole advanced post up at double quick and they find that there has been a false alarm. Such alarms come half a dozen times on some nights and they are very wearing on the troops.

The trench system is most elaborate. It constitutes a whole subterranean town with main thoroughfares, wide streets and telephone wires running all along. There hundreds of thousands of men eat, live and sleep, so well concealed that from a little way down the hill in front nothing is to be seen revealing the existence of the trenches except the hardly noticeable little bank of earth which is slightly raised above the level.

WHAT THE PRESS AGENT'S SAY

FANNING PRAISED

The following comments from [illegible] last season's tour bring out clearly the fact that this young [illegible] baritone is not only an artist for whom the future holds in [illegible] many honors, but that he has already in his brief career won a place among the truly great recital singers of the day. German and English [illegible] rank him with the best their [illegible] have to offer and American [illegible] speak to say that so distinguished and worthy [illegible] is his work [illegible] is hardly among [illegible] man [illegible] his class with whom to even [illegible] him.

[illegible] Saturday Night, November [illegible]

[illegible] singing artists now before the public [illegible] the professional musical critic, [illegible] with numbers that he hears [illegible] a dozen times in the course [illegible] season, the variety and range of [illegible] Fanning's program is a delight. [illegible] his recent recital given here he [illegible] many lyrics of rare musical appeal which have not become shop[illegible]. * * * * From the purely [illegible] standpoint, considered apart from his interpretative powers, he is exceptionally gifted. His voice is one of notable range and beauty. It is exquisitely produced with a mastery of resource in all matters of accent and phrasing, and he gives a constant impression of dramatic intelligence. * * Not only the accompaniments, but the explanatory remarks of H. B. Turpin, Fanning's sole teacher, greatly augmented the interest of the recital.

Twenty-five per cent of the proceeds from the local concert will be donated to the Red Cross fund.

KLEINE'S "SPARTACUS"

"Spartacus," George Kleine's latest film picture classic, is pronounced by all who have seen it as the most stupendous achievement yet in photoplays, far excelling its predecessors. It is announced as the attraction at the Opera house for three days commencing Thursday, October 1, continuous performances being given.

Spartacus is described as one of those rare masterpieces that occur once in a life time—an amazing unity of dramatic power and spectacular beauty. It flashes on the screen the thrilling and enthralling story of the revolt of the gladiators against Roman rule in an absorbingly interesting manner.

Historical events of that period form the basic foundation of this latest marvel in motion photography. But it is the charming combination love story, current throughout its eight parts, subdivided into three acts, that is said to have an overpowering fascination for devotees of this form of amusement. Its narrative is photodramatically related with a truth, realism and an impressive potency that could hardly be expected in silent drama. Its pictorial features are a revelation of artistic beauty.

Sanguinary gladiatorial combats, the revolt of these primitive men in its incipiency and the resultant clashes between the Roman and these barbaric soldiers furnish the atmosphere dear to the searcher after thrills. The aura of romanticism is maintained through the delineation of the reciprocated love of Spartacus, the man of virility, for the daughter of the Roman consul. It has as its tragic denouement the gruesome spectacle of lions in the arena rending the body of the jealous rival of Spartacus.

The subject afforded greater scope dramatically and pictorially than "Quo Vadis," and ample advantage has been taken of it. The characters are so naturally acted and the scenes so consistently and artistically arranged the spectators are carried away with its realism and can almost imagine the great human drama forms part of their lives.

"EVANGELINE"

The Opera house was filled last night to see one of the greatest programs yet put on. The chief attractions were the films recently procured by Captain Holland of the Canadian Bioscope company, presenting the thrilling and world renowned poem "Evangeline" by Longfellow.

The audience little thought, last night, that they were gazing upon and thrilled by $35,000 reels. "Evangeline" is like "Dante's Inferno." It is immortal. The great crowds sitting in the Opera house who saw the Acadians in their homes in the land of Evangeline, as pictured last night, the simplicity and happiness of their lives, the coming ashore, over the waters of Minas basin, of the British soldiers and sailors, from the warships, the gathering of the people in the chapel, the reading of the deportation edict, the march to the shores, the anguished farewells between Gabriel and Evangeline, the principal character, the sorrow of the godly priest, the fathers and mothers and children—saw something that will not fade from their minds. It was a wonderful picture, a delight to the eye, a thrill to the heart and a joy to the senses. It was dramatic in the extreme homelike, pastoral, beautiful and sad. It was the matchless story of "Evangeline" as Longfellow told it in his fascinating poem.

Evangeline will be shown again today for the last time at the Opera house, commencing at 1 p. m. and running continuously until 11 p. m.

THE RUNAWAY FREIGHT

At the Empress today an exceedingly sensational two-reel Reliance feature, entitled "The Runaway Freight," will be shown. It's a railroad story of intense dramatic value and is full of thrills. A short synopsis follows:

Boston Blackie, a tramp, is befriended by the daughter of the village station agent. Later, when he saves the girl from insult and the station master from robbery at the hands of his pals, he is rewarded with a position as brakeman. Blackie works his way up in the world. His former associates vow vengeance. They board Blackie's train and attempt to make trouble. But he overpowers them and puts them off the cars, though they swear to get the better of him yet. Red and Slim devise a plot to lure Anna, the station master's daughter, with whom Blackie is in love, into an empty car and send her to her death down a steep grade into the river. Blackie discovers the scheme in time to disguise himself in Anna's clothes and meet the tramps himself. He is hurled into the river, but escapes unhurt. Meanwhile, Anna has followed, and, at the point of a gun, compels the tramps to take her in a handcar to her lover's rescue. Blackie captures the crooks, and he and Anna are married.

In addition there is a strong two-reel Key Bee feature, entitled "The Death Mask." It's an Indian legend and faithfully portrays the myths of the aborigine. The Mutual Weekly is another attractive feature you should not miss. Many, many interesting news items are shown each week, and, if followed, a liberal education of current events is gleaned.

THE NAKED TRUTH

The leading part in "The Naked Truth," the five-reel photodrama which is to be shown at the Empress theater on Thursday of this week, is taken by Lyda Borelli, one of Europe's most talented and beautiful actresses. Mlle. Borelli only consented to pose for motion pictures under an agreement which prohibited pictures in which she appears being shown in cities in which she personally is to appear. This arrangement was on the same order as those made by Sarah Bernhardt, Eleanor Duse and other celebrated actresses.

Mlle. Borelle, in the part of Lolette, the Latin quarter model, runs the whole scale of human emotions. Her love for Pierre Bernier is so great that she finally consents to free him when she finds that he no longer loves her. This story gives her a wonderful opportunity to display her wonderful dramatic talents.

When "The Naked Truth" was shown at the New Candler theater in New York, the dramatic critics of that city agreed that it was probably the strongest photodrama, judging strictly from strength of plot, that had ever been shown in that city. Of course, there had been pictures which showed more actors, mobs, battles, etc., but in "The Naked Truth" the story and acting predominates, the audience is not appealed to by mere numbers, but by a wonderful story of love and devotion unfolding itself on the screen.

The title of doctor was invented for the special benefit of the learned Irnerius of the Twelfth century. The title was conferred by the University of Bologna. The first doctor of medicine was William Gordenio, who received the title from the college at Asti in 1329.

FOUR MORE BRITISH CRUISERS SUNK BY GERMAN IN ORIENT

LONDON, Sept. 29.—The official news bureau announced today that the German cruiser Emden has sunk four British steamships and a collier. The Emden has been operating in the Gulf of Bengal. She was reported recently at Madras, where she conducted a brief bombardment of that port and later at Pondicherry.

The previous official British statement dealing with the activities of the German cruiser Emden issued September 20, told of the capture of six British steamers in the Bay of Bengal and the sinking of five of them. The names of the steamers were given as the Indus, Loval, Killim, Diplomat, Frabber and Katinga. After creating havoc among the British shipping at Calcutta, the Emden went to Rangoon.

AMERICANS AND SPANISH PROBE BOMB THROWING

LONDON, Sept. 29.—The Paris correspondent of the Daily Mail says that the American and Spanish embassies have requested official details of the bomb throwing from a taube aeroplane last night. The message dropped in the city by the aviator read:

"To Parisians—Greetings from a German aeroplane.

(Signed) "VON DECKEN."

SIR CHARLES JOHNSTON LORD MAYOR OF LONDON

LONDON, Sept. 29.—Sir Charles Johnston was today elected lord mayor of London for the term of one year beginning November 1, 1914. He succeeds Sir Thomas V. Bowater. Because of the war there is every probability that the annual pageant of November will be abandoned and it is probable that the great banquet in the Guild hall which annually marks the installation of the new lord mayor also will be omitted.

There are 10 bridges formed by nature in the United States. Their formation is caused by the current of streams running through rocks.

Don't Be Misled if You Have Tuberculosis

No specific has been discovered for Tuberculosis, but Eckman's Alterative has been successful in many cases. Read of this case:—

393 Seventh Ave., New York.

"Gentlemen:—Five years ago last August I was taken to St. Francis' Hospital to be treated for bronchitis and congested lungs. After several weeks' treatment I was advised by the doctor to go to a convalescent sanitarium, but could not be admitted because the doctor at the hospital, after a thorough examination, declared my case Tubercular, and gave me a certificate to that effect. I showed the certificate to Father Stark, and he advised me to take Eckman's Alterative. I took it faithfully, and soon found myself free from night sweats and fever. I have not taken the Alterative now for two years, and can truthfully say I am well. I feel better and am stronger than before my sickness.

(Abbreviated)

(Affidavit) MARY KORHAMER.

Eckman's Alterative is most efficacious in bronchial catarrh and severe throat and lung affections and upbuilding the system. Contains no harmful or habit-forming drugs. Accept no substitutes. Small size, $1; regular size, $2. Sold by leading druggists. Write Eckman Laboratory, Philadelphia, Pa., for booklet of recoveries.—Adv.

FOUR NEW HAVEN DIRECTORS RESIGN

NEW YORK, Sept. 29.—Four directors of the New York, New Haven & Hartford Railroad company, William Rockefeller and George F. Baker of New York, Charles F. Brooker of Ansonia, Conn., and James S. Elton of Waterbury, Conn., resigned at a special meeting of the board of directors held here today. The board voted to accept the resignations, it was announced after the meeting. One new director, J. Horace Harding of New York, was elected.

Mr. Rockefeller, because of his health, has desired for some time to retire from the board, it was announced tonight, his resignation as a director being in line with his policy to curtail his activities and thus conserve his health.

Mr. Baker's resignation likewise was a continuation of his recent policy to retire from as many boards as possible.

NEW JERSEY DEMOCRATS INDORSE PERS. WILSON

Progressives Reiterate Platform of Two Years Ago; Republicans Renew Tariff Plank

TRENTON, N. J., Sept. 29.—Representatives of the Republican, Democratic and Progressive parties met in state conventions here today and adopted party platforms.

The Democratic platform included a warm indorsement of President Wilson's administration, beginning with these words: "We tender our tribute of wholehearted praise and felicitation to the great New Jersey Democrat, Woodrow Wilson, who is now the leader of the nation at Washington."

An effort to have the resolutions committee to include in its draft of a platform an indorsement of President Wilson for reelection in 1916 was defeated at the instance of State Chairman Grosscup, who said he was expressing the president's own wishes in the matter.

The Republican platform was a strongly protective tariff one and criticised the Democratic national and state administrations.

The Progressives reiterated their platform of two years ago and defeated a proposed plank in favor of government ownership of public utilities.

PREMATURE BALDNESS

Prevented by CUTICURA SOAP

Shampoos followed by occasional dressings of Cuticura Ointment. These super-creamy emollients do much for dry, thin and falling hair, dandruff and itching scalps, and do it speedily, agreeably and economically.

Be sure you get Dr. James' Headache Powders—then there will be no disappointment.—Adv.

CHAMBER OF COMMERCE JOINS COLORADO BODY

The Colorado Springs Chamber of Commerce will join the state organization as the result of action taken yesterday at a meeting of the board of directors. A resolution was passed, to be forwarded to that body, recommending that no candidates for public office be indorsed and no activity be shown in political campaigns. Reports of committees were heard and routine business transacted.

Simple Home Treatment to Remove Hairy Growths

(Beauty Culture)

Two or three minutes' use of a delatone paste will banish every bit of hair from your face, neck or arms. This paste is made by mixing some water with powdered delatone. After the paste is removed, the skin should be washed to free it from the remaining delatone and it will be clear and spotless. You will not be disappointed with this treatment if you be sure to obtain real delatone from your druggist.—Adv.

Let your Taste Govern the Color of your house but for the paint stick to

Red Seal White Lead

(Dutch Boy Painter trade-mark)

and Dutch Boy linseed oil. This pure lead and oil paint covers every crevice and grips into wood pores. It expands and contracts with the wood and does not crack.

Save money by painting well and in time. Any dealer can supply you with both these materials.

Ask your paint dealer for our Owner's Paint Guide. It's full of color suggestions and paint facts.
